Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner MacArthur contacted Atty. Benson to discuss the amendment mailed 2/25/2005. Upon review of the amendment and arguments to the previous office action, the examiner noted that the language of claim 1 was indefinite as Fig. 8 illustrated a valve disposed in each of the holes whereas the claim language namely lines 9-11 did not reflect such. Atty. Benson asked that Exr. MacArthur enter the attached Examiner Amendment to better define applicant's invention. Additionally, the examiner recommended that Atty. Benson review the above mentioned prior art as they were believed to anticipate claims 10 and 24, wherein valves are proximate the holes. Atty. Benson agreed and asked that the examiner enter the attached Examiner's amendment for claims 10 and 24. Examiner MacArthur then acknowledged that the claims are in condition for allowance basis the Examiner's Amendment..
